

## To set up a new export job for selected advisers

- From the **Data Exchange** menu, click **Integration Centre**.  
On the **Adviser Export** tab, the **Adviser export list** screen shows a list of the exports you have set up for selected advisers.
- Click **Add new**.
- Type a name for the export and select the type of export you want to set up from the **Recipient** dropdown list.
- Select the transaction types you want to export using the **Data to send** check boxes:

**Data to send**  Cash  Income  Transaction

- Cash:** Export cash transactions.
  - Income:** Export income received, such as dividends and interest.
  - Transaction:** Export stock transactions, such as sales and purchases.
- Select “daily” for the frequency.
  - Use the filters to find and select the adviser(s) for which you want to export transactions.

Selected	Adviser code	Adviser name	Adviser id	Service	Location	Team
<input type="checkbox"/>	<input type="text"/>	<input type="text" value="Matt"/>	<input type="text"/>	<input type="text"/>	(All) ▼	(All) ▼
<input checked="" type="checkbox"/>	CHANCELLOR	Matt Walsh	122115	Praemium Test	Default	Default
<input checked="" type="checkbox"/>	Matthews@nextstepgroup.com.au	Matthew Matthew	121005	Praemium Test	Default	Default
<input checked="" type="checkbox"/>	adamsm	Matt Adams	112111	Praemium Test	Default	Default

You can select as many advisers as you require in the export. If you click the **Selected** column heading, it will display all the selected advisers. If you click the checkbox below the **Selected** column heading, it will select all the advisers.

- Click **Create**.

The new export displays on the Adviser export list screen.

- The export will need to be registered with the third party software by providing the **Export id**.

PORTFOLIO EXPORT **ADVISER EXPORT**

## Running exports

Exports that occur at a specified frequency can still be run ad hoc by clicking the **Export** button.

Portfolio export list Add new Displaying 2 exports

	Id	Name	Recipient	Adviser Code	Last export	Frequency	Due on	Status	Sequence	
<input type="button" value="Edit"/> <input type="button" value="Delete"/>	6305	Class Portfolio Export Class Super	shennand	shennand	Never	weekly	Jun 25, 2019	N/A	0	<span style="border: 2px solid #e91e63; padding: 2px;">Export</span> <input type="button" value="Export Inception"/>
<input type="button" value="Edit"/> <input type="button" value="Delete"/>	690	Second export	EPI file sent via Email	David Shennan	Never	Adhoc	Jul 15, 2009	N/A	4	<input type="button" value="Export"/> <input type="button" value="Export Inception"/>

The first time you run an export, it will export all transactions from the portfolio's inception date. Subsequent exports will run from the date of the last export to the current date; however, for an ad hoc export you can click **Export Inception** to re-run an export from the inception date for all of the selected portfolios.
